EZset 420 IC1

Peripheral · Tool presetter

Article number	**90-000117**
Condition	**Showroom Machine**
Year of manuf.	**2024**
Movement X	**420 mm**
Movement Z	**420 mm**
Tool holder	**SK50**

Your advantages:

- Quick familiarisation thanks to user-friendly operation with minimal training required
- Precise SK 50 high-speed spindle with integrated calibration spheres included
- Simple spindle indexing and fast spindle brake
- Quick measuring, setting and checking of tool edges (length, diameter, radius, two angles)
- Uncomplicated measurement of the maximum tool contour with the EZmax software function
- Wide range of measuring programmes for precise measurement of concentricity and axial run-out on tool edges in the micrometre range
- Cutting edge inspection with 20x magnification in incident light and positionable projector function
- EZset one-hand operating handle enables fast and simultaneous positioning along the Z and X axes
- Quick and easy printing of measurement results via labels

Technical Data:

Max. Tool length	420 mm
Max. Tool Ø	420 mm
Max. Jaw gauge Ø	100 mm

Equipment:

- Tool presetter EZset 420
- Lower table
- Tool holding spindle SK50 incl.
Spindle indexing 4x90° and
spindle brake
- 1 row storage board adapter
